*Northside Hospital Cancer Institute is pleased to announce TECARTUS™ (brexucabtagene autoleucel) is now available through our Immunotherapy Program. TECARTUS™ is the first and only FDA-approved CD19-directed genetically modified autologous T-cell immunotherapy (CAR T-cell) indicated for the treatment of adult patients with relapsed or refractory mantle cell lymphoma (MCL). This indication was approved under accelerated approval based on overall response rate and durability of response.*

**Northside is also an FDA approved CAR T-cell center for the following products:**

**Kymriah®**, tisagenlecleucel, for the treatment of patients with the following indications

- Patients up to the age of 25 with a diagnosis of B-cell acute lymphoblastic leukemia (ALL) that is refractory or in a second or greater relapse.
- Adult patients with relapsed or refractory large B-cell lymphoma after two or more lines of systemic therapy including diffuse large B-cell lymphoma (DLBCL) not otherwise specified, high-grade B-cell lymphoma and DLBCL arising from follicular lymphoma.

**Yescarta®**, axicabtagene ciloleucel, for the treatment of patients with the following indications

- Adult patients with certain types of non-Hodgkin's lymphoma (NHL) who have relapsed or refractory disease after receiving two or more types of treatment.
