

RECOVERED COVID-19 VOLUNTEERS URGENTLY NEEDED

Plasma Donations for Treating COVID-19 (Convalescent Plasma)

Atlanta Blood Services is collecting convalescent plasma donations from individuals who have had a lab-confirmed diagnosis of COVID-19 and have fully recovered from a COVID-19 infection. This plasma will be used as an investigational treatment for patients currently fighting the coronavirus disease.

It is presumed that people who have fully recovered from COVID-19 have antibodies in their plasma that can attack the virus. While this treatment has not been fully studied for the treatment of COVID-19, convalescent plasma has been used in the past to treat outbreaks of influenza, polio, measles, SARS and Ebola.

Contact information to become a COVID-19 convalescent plasma donor:

By Phone: 404-477-1298

By Email: absinfo@bmtga.com | Online: atlantabloodservices.com

Qualified participants must meet the following eligibility criteria:

- Healthy.
- Age: ≥ 18 years.
- Have previously tested positive for COVID-19 or had a positive COVID-19 antibody test.
- Have been symptom free for at least 14 days.
- Successfully screened as a blood donor per FDA blood donation guidelines.

At the time of your appointment, please provide the following three items:

1. One of the following:

- COVID-19 positive test results from time of diagnosis.
- A positive COVID-19 antibody test.*

2. COVID-19 negative test results.**

3. Picture Identification

The COVID-19 antibody test has not been FDA cleared or approved, but has been authorized by the FDA under an Emergency Use Authorization (EUA) for use by authorized laboratories for detection of IgG antibodies against SARS CoV-2, not for any other viruses or pathogens. Furthermore, this test is authorized for the duration of the declaration that circumstances exist justifying the EUA of in vitro diagnostics for detection and/or diagnosis of COVID-19.

If you have not had post-recovery testing, you will be tested for COVID-19 again at the time of your donation and we will inform you of the results.
