

# WELCOME

**Gowri Satyanarayana, MD**

The Northside Hospital Cancer Institute is excited to welcome [Dr. Gowri Satyanarayana](#), medical director of the Transplant & Oncology Infectious Disease Program.

[Transplant and Oncology Infectious Disease Specialists of Georgia](#) provides comprehensive care for the evaluation and management of infectious disease complications in oncology, solid organ and hematopoietic stem cell transplant patients, as well as patients receiving immune-biologic therapies. Our board-certified physician, Dr. Gowri Satyanarayana, is a nationally and internationally recognized thought leader and educator in Transplant Infectious Diseases and brings almost a decade of experience from Vanderbilt University Medical Center (VUMC) to the Northside Hospital System. She is well published, and her clinical interests include clinical trials, clinical research, teaching clinicians, as well as Infectious Diseases, Transplant Infectious Diseases, Antimicrobial Stewardship, Infections in Cancer patients, Antimicrobial Resistance, and Infection Prevention. Dr. Satyanarayana works with all members of a patient's multidisciplinary team to deliver excellent care to her patients.

**Innovative treatments offered by Dr. Satyanarayana include:**

- Pre-transplant infection risks and prevention
- Post-transplant infectious diseases management
- Management of complex bacterial, fungal, and viral infections
- Management and prevention of infectious diseases in transplant patients and donors
- Assessment and management of infections in oncologic (cancer) patients receiving chemotherapy and/or immunotherapy
- Evaluation and management of biologic therapy patients
- Patient education and counseling for pre and post-transplantation patients
